

# The Most Effective Ways to Communicate with Children

**These few tips will impart love, value and worth into the children under your care.**

- Greet them by name with a warm smile and welcome them.
- Get to know them. Ask them questions about themselves. *eg. What is your favorite game to play? Then tell them what yours is.*
- As a tutor, let them know that we are going to learn and have fun together.
- Notice their body language and countenance. Give encouragement and let them know you believe in them.
- Celebrate every little progress they make.
- Remember their birthday with a card (bought or hand made) and a small gift.
- Listen to them with your heart and wait quietly before you respond.
